

Colchester GP Trainers Workshop Wednesday 23rd September 2009

Educational Supervision

- Educational Supervisors reports will be done by the GP Trainers of all GP trainees in practice whether ST1, 2 or 3. This will leave the hospital based trainees to be supervised by the Course Organisers.
- Discussion occurred around the completion of these reports – Juno's disc was distributed to each practice to assist with this.
- The e portfolio checklist obtained from the Trainers Autumn Seminar was also distributed.

Autumn Seminar

- This was discussed briefly – the Bradford VTS site was recommended as a source of useful information and documentation <www.bradfordvts.co.uk/>

Adding Value to your Registrar (or Beyond the nMRCGP)

- David Milne gave a presentation on the various aspects of this.

CSA observation

- Under Stephen Jones direction we watched and marked a video CSA to try to establish a bench mark.
